NEW AK 4C ORDER FROM SWEDISH ARMED FORCES

Löddeköpinge, Sweden (October 24, 2019) – Spuhr i Dalby AB (Spuhr®) is awarded additional order for G3 stocks. In 2016 Spuhr® delivered more than 5,000 sets of our **R-410 G3 Adjustable Stock** (M4800-751529 KOLV AK4 JUSTERB /K) to the Swedish Armed Forces for the AK 4C and AK 4D rifles. Today it is with great pride that Spuhr® can announce that we have signed a new order with FMV (the Swedish Defence Materiel Administration) for another 5,000 stock assemblies to be delivered by March 2020.

Mr. Ulf Nilsson, Chairman of the Board, says, “As a Swedish company we are honored to continue the long-held tradition of domestic production and supply to the Swedish Armed Forces.”

The Spuhr® **R-410 G3 Adjustable Stock** was designed to provide improved ergonomics and controllability for the G3 platform. Based on the success in Sweden, the R-410 – and its siblings, the R-310 and R-315 stocks, for the MP5 – are now in use with the Swedish Army and Home Guard, the Portuguese Marines, and with law enforcement in Germany and the Netherlands.

About Spuhr i Dalby AB

Spuhr i Dalby AB (Spuhr®) was founded in 2007 by Håkan Spuhr to design and manufacture advanced mounting solutions and weapon upgrade kits for elite military, police, and civilian customers. Best known for their Ideal Scope Mount System™ (ISMS™,) an innovative and market-changing approach to optics attachment, Spuhr® is a market-leading Swedish manufacturer of optics mounts and weapon upgrade kits, such as their adjustable G3 and MP5 stocks, to law-enforcement and military units around the world.
